European Powers Again Disturbed. Enssia's Increased Armanients.
London, June 21.—Peace or war? This
is the question asking itself now, and the
profoundest judgment of the wisest statesmen in Europe is unable to furnish an answer. Those who speak for the Government
most immediately involved in the warlike
rumors are ready enough to declare that
there will be no war. These are the assurance: that come from Berlin, from
Vienna and from St. Petersburg. But it
is noteworthy that while the words that
issue from the lips of those who hold the
destinies of Europe in their hands are as
peaceful as the sucking dove, their acts
savor much more of blood and iron.

The Powers most directly affected by
war rumors in the air are Russia and
Austria, and however sincere may be the
assurances of each that her intentions are
peaceful, there is no question whatever

assurances of each that her intentions are peaceful, there is no question whatever about the great extent of the war preparations at this moment being made by both. Such a despotism as Russia is able to a great extent to do its work in the dark, and little in the way of information for the outside world can escape the Charles S. Holt, attorney for the West-ern Union, stated that while the company desired in every way to assist the ends of justice, it did not desire to voluntarily piolate the statutes of the State and disclose the messages of its pairons upon the mere request of the grand jury. If the court thought fit to issue an order direct-ing the witness under pain of contempt to

for the outside world can escape the argus-eyed Russian censors.

Notwithstanding this however, enough information passes the Russian dead-line from time to time to establish the fact without question that immense war preparations are going on in Russia and on a cole that her not been gaussia since the arations are going on in Russia and on a scale that has not been equaled since the war with Turkey. Austria has greatly augmented the force of men engaged in fortifying the line of the Darina river, on the Servian frontier. That the character of these works is extremely formidable is not denied at Vienna, and while Austria Insists that they are intended only for de-fense, Russia looks on suspiciously and notes the facility which these works will furnish for an incursion into her territory when the time for action arrives.

when the time for action arrives.

Bervia, governed as she is for the time by a weak executive, and hampered by an uncertainty as to the future of her present infant monarch, is in no position to make formidable war preparations, but Montenegro, aided with financial support from Russia, is already armed to the teeth, and her army is on a war footing. Russia is constructing armored ships on the Black sea and pushing them forward to completion in hot haste, while on the Pacific she is increasing her fleet, fortifying her harincreasing her fleet, fortifying her har-ors anew and generally clearing her decks

If the outcome of all this extraordinary preparation is to be sweet and gentle peace, then it will become useless hereafter to pay any heed to the most significant facts which may portend war.

REPEALED IN RHODY. oldbition Rejected By an Overwhelm

PROVIDENCE, R. L., June 21.—Rhode sland yesterday voted on and carried by an overwhelming majority a proposed ar-ticle VIIL of the amendments to its Consti-tution, reading: "Article V. of the amendhereby annulied."

Article V. reads: "The manufacture and sale of intoxicating liquors to be used as a beverage shall be prohibited. The General Assembly shall provide by law for carrying this article into effect."

The battle that resulted in the adoption of this latter article was successfully fought for prohibition in the spring of 1886. Yesterday it was decided by the last Legislature to try to take what the Prohibitionists like to call a "backward step" and knock the Prohibition amend-ment out of the Constitution. The day was bright and cool and a huge vote was polled.

Complete returns show that the Prohib itory amendment was repealed by a vote of 5 449 more than the three-fliths of the of 5.449 more than the three-fifths of the total vote necessary. The total vote was: Approve, 28,449; reject, 9.853 In 1886, when the amendment was adopted, the vote, which was about 14,000 smaller, stood: Approve, 15,113; reject, 9,230. The vote will be officially collected on or before July 15, and will be announced by procla-mation on or before July 20.

The vote in Providence was 11,919 for epeal, 2,910 against repeal.

Washington, June 21.—At the session of the national camp, Patriotic Order of Sons of America, yesterday, the following officers were elected: President, George P. Smith, of Hisnois; vice-president, Napoleon Underwood, of Louisiana; master of forms and ceremonies, W. J. Stoner, of Pennsylvania, vice A. A. Hobson; secretary, Dr. F. W. Hendley, of Ohio; treasurer, A. B. Philips of Colorado. Of these officers all but Mr. Stoner were re-elected and they were all chosen by acclamation except Dr. Hendley, who was opposed by Frederick E. Speer, of Pennsylvania. Boston was chosen as the next place of meeting and the time of meeting changed from June to Outober, so that the next session will be had in October, 1890.

Affairs of the mutual benefit fund occupied the attention of the camp during the remainder of the morning session. At present benefits of \$500, \$1,000 and \$1,500 are paid in the several classes, the total membership of which is about 1,700. It is likely that the \$600 benefit will be abolished. The institution has been changed in several particulars so as to make it conform to the laws of the several States respecting voluntary beneficial associations.

Bell, of the Western Union Telegraph Company, to produce messages passing between Alexander Sullivan, Dan Coughliu, P. O. Sullivan, John J. Maroney and G. W. Melville. Mr. Bell maintained that the statutes of Illinois imposed a fine of \$5,000 upon a telegraph company for disclosing the contents of any personal or business messages passing over its lines. The jury, headed by State's Attorney Longenecker, repaired to Judge Shepard's room and appealed to his honor to issue an order directing the witness to answer under pain of contempt and commitment.

A. Southadick. The firemen noticed a strong smell of kerosene emitted by the flames, and as there was no fire in any part of the building and no paper or rubbish of any kind to take fire from the single gas jet that burned in the mid-lie of the hail, it is believed that the fire was the work of an incendiary. This is confirmed by the fact that a student found both of the Lasement doors at the north end wide open. The loss was \$25,000.

Kansas City, Mo., June 20.— Leigh B. Perring, the son of the postmaster of Kendall, Kan., was drowned in the Missouri river last night while bathing. He and his roommate C. A. Farris, left their boarding house, 910 Penn street, shortly after supper for the purpose of taking a boat ride.
After rowing for probably a half hour Farris proposed that they go in a swimming. Perring agreed and they rowed to the Clay County side, just opposite the mouth of the Kaw. After being in the water several minutes Farris no-ticed his friend putting for the shore and, judging by his labored action that some-ting was wrong, started to follow him.
